

Online Meeting

Smarter, faster, engaging and actionable meeting experiences.

Plug and Play

Easy to use and easy to install mobile and desktop applications. No heavy IT infrastructure or training required.

Streamline Workflows

Embed your online meetings experience into everyday applications like Google®, Microsoft® and more.

Meet Anywhere

Host and join meetings wherever you go with the Online Meeting desktop and mobile apps.

Meet Securely

Online Meeting is HIPAA compliant and offers end-to-end encryption for all meetings using WebRTC standards with SSL and DTLS for signaling and SRTP for data-channels and all media.

Built in collaboration tools and screen sharing make it easy for participants to share content in real-time for more productive meetings.

All Online Meeting plans include:

Full HD video: 720p HD video conferencing with up to 12 webcams supported.

Audio: Conference call numbers and PINs are provided, so participants can join by phone or computer.

Screen sharing: Share your screen for more interactive meetings.

Screen annotation: Meeting participants can call out important points on a shared screen in real-time during a meeting.

Meeting transcripts and insights: Meeting hosts can transcribe recorded meetings and automatically identifies actionable items.

Notes: Capture meeting notes in real-time—notes are automatically sent to all meeting participants.

Remote control: Give participants direct control of your keyboard and mouse so you can collaborate better together.
